

Fancy Yourself as a MedTech Entrepreneur? Pitch at our Dragon's Den!

Learn how to translate MedTech research into
real world application:

- develop a hypothetical MedTech product concept to solve a verified clinical need
- learn about the new product development process and medical device regulations from industry and sector specialists
- pitch for “investment” (prizes available for winners)
- expand your sector, communication, team and innovation skills
- add valuable experience to your CV
- open to all (first degree and post-graduates)
